SOLARTEK'S BRONZE RANGE

SolarTek's Bronze range is available in a Dark, Medium and Light grades.

- Designed for maximum heat rejection, SolarTek Bronze is a perfect solution for commercial buildings that receive an excessive amount of solar exposure. Its aluminium, metallized construction provides the comfort and protection needed while reducing the sun's glare that causes unwelcome eyestrain.
- Additionally SolarTek Bronze films will assist with balancing interior hot spots and deliver cost-efficient energy savings for Building Manager's and homeowners whilst giving daylight privacy deterring opportunist burglar's making it difficult to see through your glass that would normally present a view of your expensive belongings.
- With a modern metallic finish SolarTek Bronze blends in well with factory tinted glass along with today's more sophisticated commercial and residential architecture.
- Aesthetically enhances bronze and brown coloured brick buildings and looks great against brown window frames.

- Blocks 99% UV rays which are extremely harmful.
- Reduces fading.
- 10 Year manufacturer's backed warranty when installed by SolarTek.
- Scratch Resistant Coating.

| Dark | Medium | Light |
|-----------------------|---------------------|---------------------|
| Heat Reduction 79% | Heat Reduction 66% | Heat Reduction 57% |
| Glare Reduction 75.1% | Glare Reduction 58% | Glare Reduction 46% |

SOLARTEK MEDIUM SOLAR BRONZE
