

RANGE INFO

SOLARTEK SILVER REFLECTIVE

Designed for maximum heat rejection, Solartek Silver Reflective is a perfect solution for commercial buildings that receive an excessive amount of solar exposure. Its aluminium, metallized construction provides the comfort and protection needed while reducing the sun's glare that causes unwelcome eyestrain.

Additionally Solartek Silver films will assist with balancing interior hot spots and deliver cost-efficient energy savings for Building Manager's and homeowners whilst giving daylight privacy deterring opportunist burglar's making it difficult to see through your glass that would normally present a view of your expensive belongings.

HIGH

HEAT REDUCTION - 79%

GLARE REDUCTION - 84%

RADIANT HEAT REFLECTANCE
(IN DURING WINTER) - 39%

MEDIUM

HEAT REDUCTION - 65%

GLARE REDUCTION - 64%

RADIANT HEAT REFLECTANCE
(IN DURING WINTER) - 36%

LOW

HEAT REDUCTION - 55%

GLARE REDUCTION - 48%

RADIANT HEAT REFLECTANCE
(IN DURING WINTER) - 26%

With a modern metallic finish Solartek Silver blends in well with factory tinted glass along with today's more sophisticated commercial and residential architecture.

Aesthetically enhances any coloured brick buildings and looks great against white, black or grey window frames.
