

Performance Data

Total Solar Energy Rejection	72.2%
Total Solar Absorption	30.5%
Total Solar Reflection	49.5%
Total Solar Transmission	20.0%
Visible Light Transmission	32.5%
Visible Light Reflection	47.1%
Ultraviolet Light Rejection	Up to 99%
Visible Glare Reduction	63.0%
Shading Coefficient	0.32
"U" Factor	0.96
Emissivity	0.67

% may slightly change depending on glass type.

Features and Benefits

- One of the newly developed high-tech Solartek Control films offering outstanding solar and UV protection without sacrificing as much incoming natural light as the other Solar Films with the equivalent Solar Energy Rejection.
- Compare this to our Neutral Shade Dark, Sunset Bronze 20 and Silver Reflective High and 'SEE THE DIFFERENCE'.
- Ideal for both commercial and domestic applications. Significantly reduces incoming heat and provides excellent fading protection for fabrics and furniture.
- It has Scratch Resistant Coating "SRC" to protect the product and avoid the appearance of scratches during normal handling and cleaning practices.
- This product carries a full 10 year manufacturer's warranty when professionally installed.

SOLARTEK'S ULTRA PERFORMANCE RANGE

Solartek's Ultra Performance range is available in a 35, 50 and 70 grades.

- One of the newly developed High-Tech Solar Control Film offering outstanding solar and UV protection without sacrificing as much incoming natural light as other Solar Films with the equivalent Solar Energy Rejection.
- Compare this range to our Neutral, Bronze and Silver ranges and SEE THE DIFFERENCE in the amount of light transmission whilst reducing similar amounts of solar energy (HEAT).
- Ultra Performance 70 is ideal for High Street Shops as it does not effect the customers being able to see through at the window displays as much as equivalent films and cuts out 43% heat as well as 99% Ultra Violet considerably reducing fading of goods increasing profits.

- Cuts out 99% UV.
- Reduces Fading.
- 10 Year manufacturer's backed warranty when installed by Solartek.
- Scratch Resistant Coating.

Ultra Performance 35	Ultra Performance 50	Ultra Performance 70
Heat Reduction 72%	Heat Reduction 61%	Heat Reduction 44%
Glare Reduction 63%	Glare Reduction 42%	Glare Reduction 21%

% may slightly change depending on glass type.
